

✓ 1. Target Variable Analysis (satisfied)

Analyze:

- Distribution of satisfied vs not satisfied
- Satisfaction rate (%)

Visualizations:

- Bar chart of satisfaction distribution
- Count plot by satisfaction

✓ 2. Demographic Feature Analysis

(A) Age Analysis

Analyze:

- Age Mean, median, skewness
- Age vs satisfaction

Visualizations:

- Boxplot: age vs satisfied
-

(B) Location Analysis

Analyze:

- Employee distribution by location
- Satisfaction rate per location

Visualizations: Bar chart of location frequency

✓ 3. Department (Dept) Analysis

Analyze:

- Number of employees per department
- Satisfaction rate per department
- Salary distribution per department

Visualizations:

- Bar chart of departments
 - Heatmap: Dept vs satisfied
 - Boxplot: salary by Dept
-

4. Education Analysis

Analyze:

- Education vs salary
- Education vs satisfaction

Visualizations:

- Boxplot (education vs salary)
 - Bar chart (education vs satisfied)
-

5. Recruitment Type Analysis

(recruitment_type: internal, external, referral, etc.)

Analyze: Satisfaction by recruitment type

6. Job Level Analysis

Analyze:

- Salary by job level
- Satisfaction by job level

Visualizations:

- Boxplot (salary vs job_level)
 - Heatmap (job_level vs satisfied)
-

7. Onsite Work Analysis (onsite)

Analyze:

- Onsite vs remote distribution
- Satisfaction comparison

Visualizations:

- Stacked bar (onsite vs satisfied)
-

8. Awards & Certifications Analysis

Analyze: Employees with awards vs without

Visualizations: Bar plot (awards vs satisfied)

15. Feature Engineering Insights

Suggested Engineered Features

- `salary_per_level`
- `age_group` (young, mid, senior)
- `career_growth_gap` (education vs job_level mismatch)
- `recognition_score` (awards + certifications)
